ACTIVITIES

SPORTS

Welle's sponsored Schilling's first basketball team. The team finished second in the Salina men's league.

During football season, SI men kept in shape by participating in many intramural games among themselves and against the teams of several other organizations.

DAN DRUMMOND

GARY KAUFMAN

DON OLLER

FLOYD RIGGS

SI has participated in a bowling league each semester with Kansas Wesleyan University students. One of the many teams competing was the "Girl Watchers," pictured here, that placed second in the league.

Included in the SI intramural volleyball schedule were numerous student - faculty games, and several among the more athletic of the staff and student body.

DORM ACTIVITIES

"What'll we do to 'cutch' this time?"
"Throw him through the wall" ...

... Oh, yeah?

How many guys does it take to
change a lightbulb, anyway?

It's a good thing he doesn't live on the second floor!

SOCIAL ACTIVITIES

Some extracurricular activities that provided an outlet for the energies of students were the school-sponsored dances held with the Brown - Mackie School of Business.

The Coffee House provided many hours of enjoyment for Schilling Institute students in a relaxed atmosphere. Amateur entertainers, "expresso" and soft drinks were a welcome change from the bustle of classroom activities.

CHRISTMAS FORMAL

Schilling Institute's annual Christmas Formal is a tinsel and evergreen adorned affair anticipated by both faculty and the student body.

SPEAKERS

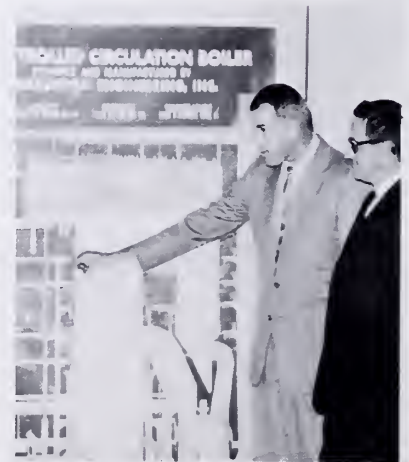

Several representatives of companies employing technicians appeared during the year to speak at informal dinners held in the cafeteria.

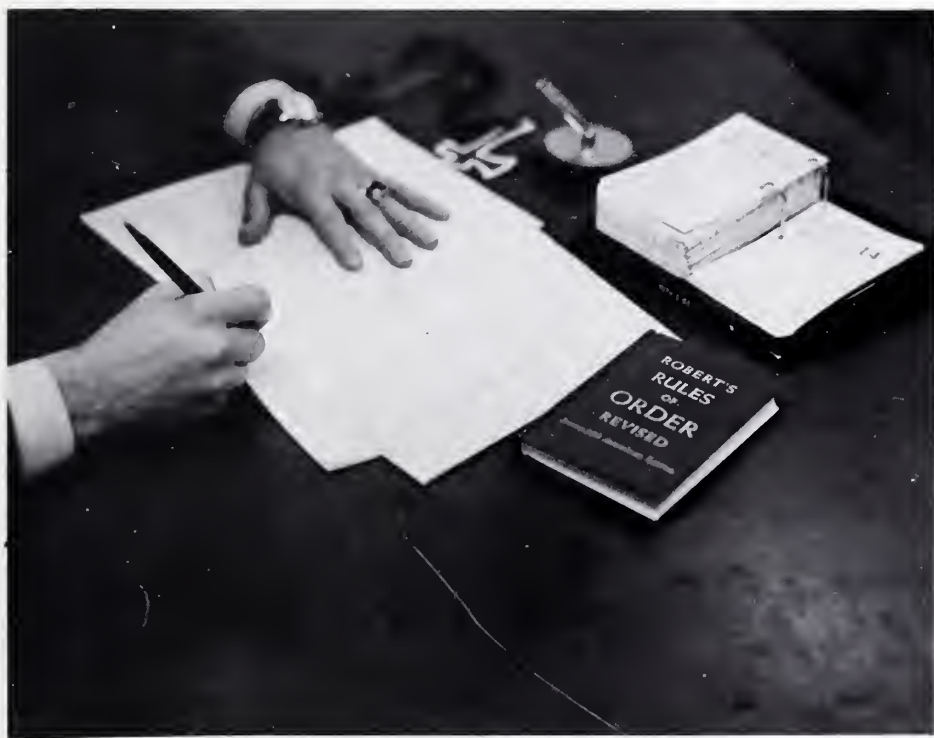

Murray Wilson Advisor to Wilson and Company, Engineers and Architects.

George Elliott Technical Institute Representative from Sandia Corporation.

Jack Ekins and Daric Miller - - Representatives of Kansas Power and Light Company.

ORGANIZATIONS

The Schilling Institute Student Governing Association was formed to provide a representative body for the students. The S.G.A. is responsible for communicating the desires and interests of the student body to the administration and appoints the committees and distributes the finances necessary for a smooth running extra curricular program. The S.G.A. has made great progress since its formation, and has become an organization of which the school can be proud.

The first S.G.A. Officers were Edward Hilbig, President; Gary McCutcheon, Vice-President; Patricia Detwiler, Secretary; Don Miller, Treasurer; Kenny Lang, Student Co-ordinator.

Spring Semester 1967 S.G.A. Officers were: left to right - Russ Savage, Vice-President; Ed Macy, President; Bob Miller, Student co-ordinator; Dan Drummond, Treas.; Vince Simpson, Sec.

FALL SEMESTER 1967 S.G.A. WERE: left to right - John Steer, treasurer; Bruce Keen, Vice-President; Roger Simpson, President; Patty Detwiler, Secretary; Larry Schroeder, Student Co-ordinator.

SPRING SEMESTER 1968 S.G.A. WERE: left to right - Mike Oborny, treasurer; Tom Mindrop, Vice-President; Steve Richards, President; Charlotte Fuller, Secretary; Roger Simpson, Student Co-ordinator.

THE ANNUAL STAFF

In spite of exasperation, high hopes dampened by occasional discouragement when pictures failed to materialize, ideas wouldn't come, and time went too fast, the annual staff had the satisfaction of capturing life at Schilling Institute of Technology this year for future memories.

To provide an editorial and pictorial account of the months just completed; to record events of historical importance to students and patrons; to reflect the many moods of the year ... these were some of the aspirations of the Liaison staff, composed by the students of the Schilling Institute of Technology.

Mr. Harrell Guard, annual staff advisor; Gary McCargar, editor; Russell Savage, assistant editor; Ken Morgan, Danny Drummond, advertisement; Patricia Detwiler, Don Oller, Floyd Riggs, Robert Cooley, class editors; Charlotte Fuller, Claire Gestl, organizations editors; Gary Kaufman, Gary McCutcheon, activities and sports editors.

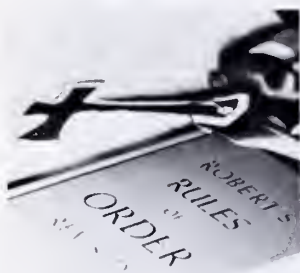

STUDENT CHAPTER OF ASCET: left to right, FRONT ROW - Ed Macy, Pat Detwiler, Vince Simpson, Bruce Keen, Charlotte Fuller, Jerry Wise. 2nd ROW - Bob Cooley, John Marlett, Ed Halst, Gary Crabb, Cecil Page, John Capra, Ron Jones. LAST ROW - Larry Deines, Tom Mendrup, Mike Oberney, Don Cox, Gary McCutcheon, Mike Barfield, Gary Kaufman, Ottis Holley.

The First Student Chapter of the American Society of Certified Engineering Technicians was formed on Schilling Campus in January of 1967 with 26 members. Mr. Carroll Dutton and Mr. Albert Graham, representatives from the Salina Chapter, met with the students to explain the functions of A.S.C.E.T. and help with the Student Organization.

Mr. Fred Kirtpatrick addressing the Student Chapter at a dinner meeting on campus.

The
PROUD
Label

Pride comes as standard equipment on every Beechcraft ... pride in our products, (the very finest) pride in our company (stable, strong, growing) and pride in our industry (exciting, challenging, rewarding).

Our model line numbers 18, from the single engine Beechcraft Musketeer to the twin turbine-powered pressurized King Air and new 17 place 99 Airliner. Our military support programs - including missile targets - contribute substantially to national defense. And our aerospace division is involved in the space travels of Gemini, Apollo and LM.

We are proud of the first Beechcraft, the classic Model 17 "Staggerwing" which took to the skies in 1932 to break record after record and become the standard by which other airplanes were judged. It also set standards for perfection of design and construction which became a tradition at Beech, and gave birth to the magnificent King Air, world leader in corporate aircraft.

There are more than 10,000 of us "Beechcrafters" now, employed in Wichita, Salina and Liberal, Kansas and Boulder, Colorado. And we're a proud lot, as we should be. Our company is strong and stable, with roots deep in the American economy ... our future is secure.

The world of aviation is the world of tomorrow. Ahead of us are potentials so exciting that their scope defies definite examination. But inherent to all at Beechcraft are the capabilities to seek out greater eras of achievement.
